

**NICC
educates the
professionals
you rely on
each day.**

Please VOTE December 11

For \$1.75 a month, or the cost of a cup of coffee, your support provides:

1. Expansion of the facilities, programs and equipment that train tomorrow's workers with the most up-to-date technology and skills.
2. Repair and updating of roofs, windows, heating and cooling units, wiring, and safety and security systems - the first since the 1960's.
3. Increased dual enrollment opportunities for high school students to help working families save on college tuition.

Why is this important to me?

1. NICC educates the professionals you rely on each day. This includes nearly 10,000 graduates in health-related fields alone, not to mention auto mechanics, welders and carpenters.
2. NICC educates more students in this area than any other educational institution. Nearly 87 percent of NICC's graduates live, work and pay taxes in Northeast Iowa.
3. NICC's economic impact on Northeast Iowa is estimated at \$82.4 million annually.

Visit www.nicc.edu for more information.

With residential rollbacks, the owner of a \$100,000 home would pay only \$1.75 per month or about \$21 per year!
