KEEP KIDS AWAY FROM TRACTORS

Did you know that tractor rollovers and runovers are the number one cause of death to children on the farm?

These deaths can easily be prevented. Still, it seems that for some it's a tradition to ride the tractor with their children.

But in just seconds, a child can fall off and be crushed by a tractor wheel or pull-behind implement. And don't be fooled by thinking that an enclosed cab is safe, either.

Even if they ask to, never let a child younger than 12 on or near a tractor.

Let's face it: It's easier to bury a tradition, than it is to bury a child. "Keep Kids Away from Tractors."
